ABOUT

I'm Lovepreet, a web designer and developer with experience in React.js, TypeScript, and modern web technologies. I focus on creating clean, responsive designs and functional user interfaces. I enjoy exploring new tools, improving performance, and ensuring websites are user-friendly. Outside of work, I like walking, gaming, listening to music, and finding inspiration in everyday life. I aim to build websites that look good and work smoothly.

Skills

Communication, Teamwork, Responsibility, Creativity, Problemsolving, Adaptive.
